RENEWED PETITION UNDER 37 CFR-1.47(a)

Mail Stop PCT
Commissioner for Patents
Office of PCT Legal Administration
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In a decision dated February 23, 2006, the Legal Examiner dismissed without prejudice applicant's petition under 37 CFR-1.47(b) to accept the application identified above with a signed declaration by one of the inventors, namely Lars Bo Hansen, but without a signed declaration by the other inventor, namely Flemming Møller Larsen. We respectfully request reconsideration on the merits. No additional petition fee is required.

The decision lists required items (1)-(4) and indicates that all but item (2) have been met. The decision states that as to item (2), it is not clear whether it is being alleged that non-signing inventor Flemming Møller Larsen refuses to execute the application or that he cannot

RECEIVED

19 SEP 2006

Legal Staff
International Division

be reached after diligent effort. It further states that to establish a refusal to sign, it is required that the inventor be presented with the application papers (specification, including claims, drawings, and oath or declaration).

We are accordingly submitting herewith the following:

Exhibit A: Printout of a question put by the undersigned to biblioteksvagten@biblioteksvagten.dk, a reference service in Denmark (hereinafter "the reference service"), and of the reply thereto

Exhibit B: Copy of a letter to Mr. Flemming Møller Larsen dated August 8, 2006 (hereinafter "the letter")

Exhibit C: Copy of FedEx international air waybill

Exhibit D: Printout of FedEx tracking report

Discussion

Exhibit A gives the current address of Flemming Møller Larsen as provided by the reference service. This is the same address as the one indicated in applicant's original petition and provides confirmation that the address has not changed.

Exhibit B shows that the letter presented Mr. Flemming Møller Larsen with the application papers (specification, including claims, drawings, and declaration), as required in the decision, that he was requested to return the executed declaration by August 18, 2006, and that a return Federal Express envelope was provided for his convenience in doing so.

Exhibit C shows that the letter with its enclosures was sent by Federal Express to Mr. Flemming Møller Larsen at the address provided by the reference service. It also shows that the tracking number is 8554 6731 8032.

Exhibit D shows that the envelope with that tracking number was delivered at 9:45 a.m. on August 10, 2006.

At approximately 11:00 a.m. EDT today (5:00 p.m. in Denmark), the undersigned called the mobile telephone number provided by the reference service. The call was

answered, but when the undersigned identified himself, the person who answered the call hung up.

As of 5:00 p.m. August 18, 2006, the office of the undersigned has not received the requested reply from Mr. Flemming Møller Larsen.

On information and belief, therefore, the undersigned declares that Mr. Flemming Møller Larsen has been contacted and has been presented with the application papers (specification, including claims, drawings, and declaration), but refuses to sign the declaration.

It is therefore respectfully requested that the application be accepted as made by Lars Bo Hansen on behalf of himself and Flemming Møller Larsen.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or patent issued thereon.

Respectfully submitted,
COOPER & DUNHAM LLP

Re: U.S. patent application No. 10/534,769
(national stage of international application PCT/DK2003/000778)
claiming priority of Danish patent application PA 2002 01745
for patent covering an invention
of Flemming Møller Larsen and Lars Bo Hansen
for lightning protection of a pitch-controlled wind turbine blade
(Our Docket 1175/74050)

Dear Mr. Møller Larsen:

We understand that you are a joint inventor with Lars Bo Hansen of an invention described by Danish patent application PA 2002 01745, upon which the US patent application identified above is based and of which it claims the priority. On November 20, 2002, you and Mr. Hansen executed an assignment of the Danish patent application to LM Glasfiber A/S, having a post office address at Rolles Mollevej 1, DK 6640 Lunderskov, Denmark.

By your assignment of the Danish patent application, you assigned "the entire right, title and interest in and to said Danish patent application and in and to said invention for all countries of the world, including all priority rights under the International Convention for the protection of Industrial Property associated with said Danish patent application and the entire exclusive right to any and all Letters Patents or the like which may be granted anywhere on said invention."

We are enclosing herewith the following:

1. A copy of the assignment of the Danish patent application;
2. A copy of the US patent application, including 14 pages of specification, claims and abstract, four sheets of drawings, and a declaration (including a power of attorney) naming you and Mr. Hansen as joint inventors but executed only by Mr. Hansen;
3. Two copies of an unsigned declaration (including a power of attorney) naming you and Mr. Hansen as joint inventors;

Mr. Flemming Møller Larsen

August 8, 2006

Page 2

4. Two copies of an assignment of the US patent application, each dated and signed by Mr. Hansen and providing a blank space for your signature and date of signing;

5. A prepaid, self-addressed Federal Express envelope for your convenience in returning papers to us as requested below.

The US patent application was filed without your signature to the declaration executed by Mr. Hansen. We request that you now join in the application by reading, dating and signing either enclosed unsigned declaration and returning it to us in the enclosed Federal Express envelope. We request that you also read, date and sign either enclosed copy of the assignment of the US patent application and return the executed assignment to us in the same envelope. (It is desirable but not necessary to have someone witness your signature to the assignment.) When we receive the executed papers, we will file the executed declaration and record the executed assignment in the US Patent and Trademark Office.

The enclosed papers except for the two that we request you to execute and return to us are for your file.

If we do not receive at least the executed declaration by August 18, 2006, we will construe this as a refusal to join in the US patent application and will request that the US Patent and Trademark Office process the application without your signature to the declaration.

We thank you for your cooperation.

Sincerely,

Donald S. Dowden
